AMETEK HDR Power Systems

AMETEK HDR Power Systems has just released their new **CAPABILITIES BROCHURE**. This new brochure provides basic information and descriptions of HDR's Power Controls & Systems, Power Supplies, and Panelboards/Switchboard.

AMETEK HDR is a recognized world class manufacturer of electronic equipment for specific markets and special applications. Their SCR Power Controls are high quality, industrial grade products designed to operate reliably for many years in process environments.

Their custom engineered equipment and expert staff are dedicated to providing results in faster manufacturing times with fewer revisions and less rework than any other supplier in this industry.

HDR application engineers have over 50 years of combined experience in the power controls industry. They have encountered and solved a variety of technical problems involving process power distribution, harmonics filtering and power factor corrections.

With an accomplished 24/7 Service and Technical Support team, HDR invites you to "Discover the advantages of doing business with AMETEK HDR Power Systems for yourself, and find out why they are called "THE PREFERRED SOURCE."

To order your copy of the new brochure, send your request to:
